OBJECTIVE

Highly skilled and passionate Software Development Teacher with a strong commitment to fostering a dynamic learning environment and empowering students to excel in the field of software development. Seeking a position where I can leverage my extensive technical expertise and effective teaching strategies to instill practical coding skills, cultivate problem-solving abilities, and inspire the next generation of developers. Dedicated to creating engaging and interactive lessons that cater to diverse learning styles, encouraging students to embrace innovative technologies and pursue rewarding careers in the software industry.

SKILLS

- Customized Learning Plans
 - Clear Communication
 - Project-Based Learning
 - Continuous Assessment and Feedback
 - Stay Updated with Industry Trends
 - Incorporating Practical Tools and Frameworks
 - Promoting Collaborative Learning
 - Adapting to Diverse Learning Styles
 - Dynamic Presentation Techniques
 - Clear and Concise Communication
 - Real-World Application
-

EXPERIENCE

Software Development Professor

University of the Philippines Diliman

April 2025–October 2027

As a dedicated Software Development Teacher at University of the Philippines Diliman, I have been instrumental in nurturing aspiring developers and equipping them with the necessary skills to thrive in the fast-paced world of software development. With a strong commitment to creating an engaging and supportive learning environment, I have achieved significant milestones in my role. Key responsibilities and accomplishments include:

- Curriculum Development
- Interactive Classroom Instruction
- Individualized Learning
- Real-World Projects
- Feedback and Evaluation
- Promoting a Collaborative Environment
- Industry Relevance
- Coding Competitions and Workshops
- Educational Support
- Professional Development Initiatives
- Student Success
